

SKU Number: Rusher\_RishiIndustries

Bundle Id: Rusher\_RI\_ - com.RishiIndustries.Rusher

**Review Notes:**

A Fun and useful app for the mass for directions and accessible fun. The app has a built in browser and has a user location pin pointer, Allowing the user not only to never be lost, but have a quick search engine to a target date. Afterward the app can direct one to the maps allowing them to efficiently find an address without much work.

**Metadata:**

Were you ever Lost, or completely clueless on where you want to go on a bright Saturday morning. Well your wait is over... Introducing the new Rusher application with built in safari and current location.

A Application built for rare and frequent uses. Rusher is an app that can help u maximize your search and directions input while minimizing your time consumption. Not only for everyday uses, The Rusher App helps denote time when you have completely no idea where you are. You may have the tendency to blame your dog, or any other inanimate object, However Rusher comes to the RESCUE.

With Current Location Built Straight in the app, the app will always show you where you are going and will never leave you in a situation where you can compare yourself to being stranded in the Bermuda Triangle.
